- Strong analytical and problem-solving skills
- Effective time management and organizational abilities
- Teamwork and communication skills
- Adaptable and open to challenges
- Integrity and commitment to high-quality performance
- Hardworking

Achievements

- mycityradiusattendance.com

Developed an attendance management system that automates the attendance process, making it easier for organizations to track employee attendance and manage their workforce.

- jikubaliafrica.org

Built and deployed a professional website for a community-focused initiative (Jikubali Africa), enhancing its online presence and enabling better engagement with stakeholders.

- mitexplorers.com

Designed and implemented a vibrant web platform for a tours and travel company that offers a wide range of travel services, including flight bookings, hotel reservations, and customized travel packages for esteemed online booking clients.

Portfolio

- ◆ mycityradiusattendance.com

Tech Stack: Django, Vue.js, Tailwind CSS, MySQL

Description: A cutting-edge attendance and geo-fencing system for educational institutions and workplaces, ensuring accountability and real-time location tracking.

- ◆ jikubaliafrica.org

Tech Stack: Django, React, Tailwind CSS, PostgreSQL

Description: A logistics and shipping service website built to streamline cargo tracking, client communication, and global freight operations.

- ◆ wakafreightforwardersltd.co.ke

Tech Stack: Django, Vue.js, Tailwind CSS, PostgreSQL

Description: A logistics and shipping service website built to streamline cargo tracking, client communication, and global freight operations.

- ◆ mitexplorers.com

Tech Stack: Django, Vue.js, Bootstrap, PostgreSQL

Description: A digital platform built to connect adventurers with immersive expeditions, nature treks, and educational travel experiences across East Africa.

◆ unashamedcharity.org

Tech Stack: Django, Vue.js, Tailwind CSS, PostgreSQL

Description: Corporate website for DeepKentom, a tech consultancy offering tailored software development, research systems, and data-driven solutions across industries.

◆ deepkentom.tech

Tech Stack: Django, React, Tailwind CSS, PostgreSQL
